

Straw hat blue 5mm led

1000 pcs MPQ 5mm Blue Straw Hat Ultra Bright LEDs

Package Dimensions

Unit: (mm)

Tolerance: ± 0.25 mm

Basic Technical Data

Emitted Colour : Blue

Size (mm) : 5mm

Lens Colour : Water Clear

Peak Wave Length (nm) : N/A

Forward Voltage (V) : 3.0~3.4

Reverse Current (uA) : ≤ 30

Luminous Intensity Typ Iv (mcd) : Average in 300

Life Rating : 100,000 Hours

Viewing Angle : 120 Degree

Absolute Maximum Ratings (Ta=25°C)

Max Power Dissipation : 80mw

Max Continuous Forward Current : 30mA

Max Peak Forward Current : 75mA

Reverse Voltage : 5~6V

Lead Soldering Temperature : 240°C (<5Sec)
Operating Temperature Range : -25°C ~ +85°C
Preservative Temperature Range : -30°C ~ +100°C

5mm Straw hat led introduce

This size and type of led is so popular because it is bright, easy to use, small, and versatile. It can fit in most all spaces. The trait that sets this LED apart from others in a similar category is that it is a wide angle light. This means that the light is more spread out and not so direct. This can help out a lot when trying to illuminate something in small spaces.

The name comes from the shape of the led lens. It resembles the shape of an actual straw hat.

Our Advantages

Your inquiry for our products or prices will be replied in 24 hours.

We offer the OEM and ODM service.

Protection of your sales area, ideas of design and all your private information.

We guarantee both quality and service regardless of your big or small order.

Advanced equipment and good materials: ASM machine, good chips and epoxy resin.

Our Service

Dongguan Zhiding Electronics technology Co., Ltd use and have only the highest quality leds out there.

We have stocks for some regular led items, or hot led items. Please feel free to contact us for stock information. In case of stock, it can be shipped within three days. In the case of no stock, the customer will be informed of the time required for production, depending on the type and quantity of the led products. We also can provide customized service. Develop and design according to the customer's description and the effect you want to achieve.
